List of contents Volume 33 (2004)

Issue 1

Publisher's note v

D. Dvir and T. Lechler, **Plans are nothing, changing plans is everything: the impact of changes on project success** 1

E.M. Mora-Valentin, A. Montoro-Sanchez and L.A. Guerras-Martin, **Determining factors in the success of R&D cooperative agreements between firms and research organizations** 17

D. Cassimon, P.J. Engelen, L. Thomassen and M. Van Wouwe, **The valuation of a NDA using a 6-fold compound option** 41

G. Mason, J.-P. Beltramo and J.-J. Paul, **External knowledge sourcing in different national settings: a comparison of electronics establishments in Britain and France** 53

C. Lyall, A. Bruce, J. Firn, M. Firn and J. Tait, **Assessing end-use relevance of public sector research organisations** 73

S. Casper and R. Whitley, **Managing competences in entrepreneurial technology firms: a comparative institutional analysis of Germany, Sweden and the UK** 89

E. Autio, A.-P. Hameri and O. Vuola, **A framework of industrial knowledge spillovers in big-science centers** 107

M. Balconi, S. Breschi and F. Lissoni, **Networks of inventors and the role of academia: an exploration of Italian patent data** 127

A. Vohora, M. Wright and A. Lockett, **Critical junctures in the development of university high-tech spinout companies** 147

Book review 177

Instructions to Authors I

Issue 2

Publisher's note iii

E.F. Sherry and D.J. Teece, **Royalties, evolving patent rights, and the value of innovation** 179

J. Faber and A.B. Hesen, **Innovation capabilities of European nations. Cross-national analyses of patents and sales of product innovations** 193

Elsevier B.V.
doi:10.1016/S0048-7333(04)00174-X

W. Becker and J. Dietz, **R&D cooperation and innovation activities of firms—evidence for the German manufacturing industry** 209
S.J. Appold, **Research parks and the location of industrial research laboratories: an analysis of the effectiveness of a policy intervention** 225
M. Fritsch and G. Franke, **Innovation, regional knowledge spillovers and R&D cooperation** 245
J. Stowsky, **Secrets to shield or share? New dilemmas for military R&D policy in the digital age** 257
F.F. Suarez, **Battles for technological dominance: an integrative framework** 271
K. Lim, **The relationship between research and innovation in the semiconductor and pharmaceutical industries (1981–1997)** 287
M.L. Flor and M.J. Oltra, **Identification of innovating firms through technological innovation indicators: an application to the Spanish ceramic tile industry** 323
S.-H. Chen, **Taiwanese IT firms' offshore R&D in China and the connection with the global innovation network** 337
P.D. Morrison, J.H. Roberts and D.F. Midgley, **The nature of lead users and measurement of leading edge status** 351

Erratum 363

Issue 3

S. Negassi, **R&D co-operation and innovation: a microeconometric study on French firms** 365
P. Windrum, **Leveraging technological externalities in complex technologies: Microsoft's exploitation of standards in the browser wars** 385
R. Kaiser and H. Prange, **The reconfiguration of National Innovation Systems—the example of German biotechnology** 395
E. Özçelik and E. Taymaz, **Does innovativeness matter for international competitiveness in developing countries? The case of Turkish manufacturing industries** 409
B. Van Looy, M. Ranga, J. Callaert, K. Debackere and E. Zimmermann, **Combining entrepreneurial and scientific performance in academia: towards a compounded and reciprocal Matthew-effect?** 425
N. Viner, P. Powell and R. Green, **Institutionalized biases in the award of research grants: a preliminary analysis revisiting the principle of accumulative advantage** 443
R.R. Nelson, **The market economy and the scientific commons** 455
F. Xavier Molina-Morales and M. Teresa Martínez-Fernández, **How much difference is there between industrial district firms? A net value creation approach** 473
S. Roper, N. Hewitt-Dundas and J.H. Love, **An ex ante evaluation framework for the regional benefits of publicly supported R&D projects** 487
J. Cantwell and G. Vertova, **Historical evolution of technological diversification** 511
J. Suzuki and F. Kodama, **Technological diversity of persistent innovators in Japan. Two case studies of large Japanese firms** 531
I. Drejer, **Identifying innovation in surveys of services: a Schumpeterian perspective** 551

Book review 563

Issue 4

Special Issue: Scientific and Technical Human Capital: Science Careers and Networks as Knowledge Assets

Edited by: Barry Bozeman and Vincent Mangematin

Editorial 565

M. Gaughan and S. Robin, **National science training policy and early scientific careers in France and the United States** 569
A.L. Oliver, **Biotechnology entrepreneurial scientists and their collaborations** 583
B. Bozeman and E. Corley, **Scientists' collaboration strategies: implications for scientific and technical human capital** 599
S. Davenport, **Panic and panacea: brain drain and science and technology human capital policy** 617
C.D.F. Corolleur, M. Carrere and V. Mangematin, **Turning scientific and technological human capital into economic capital: the experience of biotech start-ups in France** 631
F. Murray, **The role of academic inventors in entrepreneurial firms: sharing the laboratory life** 643
J.F. Porac, J.B. Wade, H.M. Fischer, J. Brown, A. Kanfer and G. Bowker, **Human capital heterogeneity, collaborative relationships, and publication patterns in a multidisciplinary scientific alliance: a comparative case study of two scientific teams** 661

Issue 5

B. Godin, **The New Economy: what the concept owes to the OECD** 679
M. Kenney and W. Richard Goe, **The role of social embeddedness in professorial entrepreneurship: a comparison of electrical engineering and computer science at UC Berkeley and Stanford** 691
R.J.W. Tijssen, **Is the commercialisation of scientific research affecting the production of public knowledge? Global trends in the output of corporate research articles** 709
E. González and F. Gascón, **Sources of productivity growth in the Spanish pharmaceutical industry (1994–2000)** 735
E.J. Hackett, D. Conz, J. Parker, J. Bashford and S. DeLay, **Tokamaks and turbulence: research ensembles, policy and technoscientific work** 747
M. Höyssä, H. Bruun and J. Hukkinen, **The co-evolution of social and physical infrastructure for biotechnology innovation in Turku, Finland** 769
M.S. Giarratana, **The birth of a new industry: entry by start-ups and the drivers of firm growth. The case of encryption software** 787
T. Iwasa and H. Odagiri, **Overseas R&D, knowledge sourcing, and patenting: an empirical study of Japanese R&D investment in the US** 807
J. Alegre-Vidal, R. Lapiedra-Alcamí and R. Chiva-Gómez, **Linking operations strategy and product innovation: an empirical study of Spanish ceramic tile producers** 829

Book reviews 841

Issues 6–7

K. Menrad, **Innovations in the food industry in Germany** 845
G.B. Navaretti, M. Galeotti and A. Mattozzi, **Moving skills from hands to heads: does importing technology affect export performance in textiles?** 879
F.W. Geels, **From sectoral systems of innovation to socio-technical systems. Insights about dynamics and change from sociology and institutional theory** 897
M. Lehrer and K. Asakawa, **Rethinking the public sector: idiosyncrasies of biotechnology commercialization as motors of national R&D reform in Germany and Japan** 921
M. Reitzig, **Improving patent valuations for management purposes—validating new indicators by analyzing application rationales** 939
T.J. Nameroff, R.J. Garant and M.B. Albert, **Adoption of green chemistry: an analysis based on US patents** 959
A. Inzelt, **The evolution of university–industry–government relationships during transition** 975
M. Beise, **Lead markets: country-specific drivers of the global diffusion of innovations** 997
M. Hemmert, **The influence of institutional factors on the technology acquisition performance of high-tech firms: survey results from Germany and Japan** 1019
J. Chataway, J. Tait and D. Wield, **Understanding company R&D strategies in agro-biotechnology: trajectories and blind spots** 1041

Book reviews 1059

Issue 8

J. Watson, **Selection environments, flexibility and the success of the gas turbine** 1065
N. Carayol and M. Matt, **Does research organization influence academic production? Laboratory level evidence from a large European university** 1081
R. Helm and M. Kloyer, **Controlling contractual exchange risks in R&D interfirm cooperation: an empirical study** 1103
R.C.M. Yam, J.C. Guan, K.F. Pun and E.P.Y. Tang, **An audit of technological innovation capabilities in Chinese firms: some empirical findings in Beijing, China** 1123
H. Kollmer and M. Dowling, **Licensing as a commercialisation strategy for new technology-based firms** 1141
M. Hoegl and L. Proserpio, **Team member proximity and teamwork in innovative projects** 1153
K. Dahlin, M. Taylor, M. Fichman, **Todays Edisons or weekend hobbyists: technical merit and success of inventions by independent inventors** 1167
F. Galia, D. Legros, **Complementarities between obstacles to innovation: evidence from France** 1185
K. Laursen and A. Salter, **Searching high and low: what types of firms use universities as a source of innovation?** 1201
B. Godin, **The obsession for competitiveness and its impact on statistics: the construction of high-technology indicators** 1217
A. Afuah, **Does a focal firms technology entry timing depend on the impact of the technology on co-opetitors?** 1231

Book reviews 1247

Issue 9

Special Issue: What do we know about Innovation?

Guest Editors: Virginia Acha, Orietta Marsili and Richard Nelson

V. Acha, O. Marsili and R. Nelson, **What do we know about innovation?** 1253

The nature of technological knowledge

P. Nightingale, **Technological capabilities, invisible infrastructure and the unsocial construction of predictability: the overlooked fixed costs of useful research** 1259

The management of research and development in the firm

A. Bergek and C. Berggren, **Technological internationalisation in the electro-technical industry: a cross-company comparison of patenting patterns 1986–2000** 1285

Systems of innovation

V. Walsh and M. Le Roux, **Contingency in innovation and the role of national systems: taxol and taxotère in the USA and France** 1307

J.L. Furman and R. Hayes, **Catching up or standing still? National innovative productivity among 'follower' countries, 1978–1999** 1329

S. Jacobsson and A. Rickne, **How large is the Swedish 'academic' sector really? A critical analysis of the use of science and technology indicators** 1355

The measurement of scientific and technological activities

H. Grupp and M.E. Mogee, **Indicators for national science and technology policy: how robust are composite indicators?** 1373

S. Mendonça, T.S. Pereira and M.M. Godinho, **Trademarks as an indicator of innovation and industrial change** 1385

The legacy of Keith Pavitt

M. Meyer, T.S. Pereira, O. Persson and O. Granstrand, **The scientometric world of Keith Pavitt. A tribute to his contributions to research policy and patent analysis** 1405

B. Verspagen and C. Werker, **Keith Pavitt and the Invisible College of the Economics of Technology and Innovation** 1419

Issue 10

M. Hobday, H. Rush and J. Bessant, **Approaching the innovation frontier in Korea: the transition phase to leadership** 1433

J. Vicente Blanes and I. Busom, **Who participates in R&D subsidy programs? The case of Spanish manufacturing firms** 1459

R. Belderbos, M. Carree and B. Lokshin, **Cooperative R&D and firm performance** 1477

K. Desmet, P. Kujal and F. Lobo, **Implementing R&D policies: an analysis of Spain's pharmaceutical research program** 1493

M. Chiarvesio, E. Di Maria and S. Micelli, **From local networks of SMEs to virtual districts? Evidence from recent trends in Italy** 1509
O. Ibert, **Projects and firms as discordant complements: organisational learning in the Munich software ecology** 1529
F. Cesaroni, **Technological outsourcing and product diversification: do markets for technology affect firms' strategies?** 1547
M. Mariani, **What determines technological hits? Geography versus firm competencies** 1565
K. Blind and N. Thumm, **Interrelation between patenting and standardisation strategies: empirical evidence and policy implications** 1583
A. Fosfuri, **Determinants of international activity: evidence from the chemical processing industry** 1599
O. Sorenson and L. Fleming, **Science and the diffusion of knowledge** 1615
W. Bönte, **Spillovers from publicly financed business R&D: some empirical evidence from Germany** 1635
D. Archibugi and K. Bizzarri, **Committing to vaccine R&D: a global science policy priority** 1657
M.S. Dahl and C.Ø.R. Pedersen, **Knowledge flows through informal contacts in industrial clusters: myth or reality?** 1673
J. Krafft, **Entry, exit and knowledge: evidence from a cluster in the info-communications industry** 1687
